SuperBlast® Stationary Blasters by Empire
Designed for simplicity, safety, reliability and performance, the Empire SuperBlast® tanks are perfect for projects big or small. Contact Miles Supply to order the size you need.

Econo-Blast™ Portables by Empire
Econo-Blast portable tanks are compact pressure blasters that share many features of Super-Blast. Ideal for spot blasting and detail work. This economical option has less grit capacity and smaller nozzles.

Empire Stationary & Portable Blasters

Weight (lbs)	250	415	750
	EA0006	EA0008	EA0009

Media capacity is based on a bulk density of 100 lbs per cubic foot.

EconoBlast Specifications

Model	P-150	P-300
Pressure Vessel Construction	ASME	ASME
Media Capacity*	150 lbs.	300 lbs.
Tank Diameter	12"	16"
Filling Height	36"	44"
Weight	80 lbs.	102 lbs.
	EA0010	EA0004

Media capacity is based on a bulk density of 100 lbs per cubic foot.

SuperBlast can be electronically connected to the Hirons Automatic Model J curtain, page 5; when set number of passes are completed, the blasting process is automatically shut down.
The larger Econo-Blast models can be equipped with Empire's patented Sure-Flo grit valve and 680 remote controls, which stops blasting the instant the nozzle is released, see page 13.

Blast Machines by Marco
Miles Supply offers the full line of Marco Blast Machines. These lightweight Marco Blast Machines have a powder-coated finish, concave top with triangle handle to make it easy to fill and pressurize the machine. Standard features like the moisture separator keeps the abrasive drier, while the Integrator Series Mixing Valve lets you control the right blend of air and abrasives. The Integrator's air-only feature also helps with quick clean-up. Let us help you decide which model is right for you!
Call or see website for Marco Parts and lists.
****Click for Marco Metering Valve PARTS List.****

Brooksie Blaster!
We combine a Marco personal air filter with a blaster–use less hose!

See "Brooksie Blaster Cemetery Kit" on page 22

Specifications Marco Blast Machines

Model J Automatic Sandblaster by Hirons
Units are fully assembled and tested prior to shipment. 8' and 10' Models.
Look for these features:

- Full range of speeds for independent horizontal and vertical motion, precise controls can adjust coverage during operation.
- Compressed air power continues movement to the end of the track, preventing media damage to the stone; power failures will not cause the nozzle to stop motion in mid-stroke.
- Viewing screen offers excellent visibility during blasting, and screen frames slide open to allow for easy stencil inspection.
- Sandhose connection inside the blastroom.
- Optional rubber curtain for manual work access.
- ***Can be electronically connected to the Empire Blaster. For automatic shut down after set number of passes are completed .***

Sight Screen
Sight screens to protect curtain glass, provides excellent visibility.

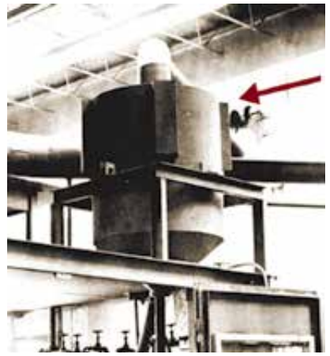
Miles Supply Abrasive Pick-up
Stop shoveling your sand into your tank and let our Abrasive Pick-up unit suck it up instead. Reasonably priced and quality craftsmanship are two features that set this unit apart from the competition. Includes a bottom screen.
Unit is shown on top; pick up hose and Empire tank sold separately.
EA0018
1000lb tank 10.68 cu foot with Jet & Head



Steel Shot Pick-up Unit
Steel Shot Elevator will eliminate shoveling and sifting, while also delivering clean shot to the shaping machine. The unit (28" round x 42" high) can be mounted on top of the shaping room, hung from overhead rafters, or mounted on legs either outside or inside the shaping room. Installation is simple and can be adapted to any shaping room. This unit will pay for itself in no time!
EA0001

Straight duct from
4 to 22 inches diameter.

Standard or custom inlet and outlet connections available.

Drops where you need them.
Reconfigure without tools.

Easy Duct™
Easy Duct™ is easy to install. Requires no welds, no rivets and no screws. The components clamp together which eliminates time-consuming and costly joining methods. Easy Duct™ is not only quick, it's also strong. Start with straight pipe in diameters from 4 to 22 inches and add fittings, branches, elbows, hoods and adaptors; with each connecting end having specially machined double rolled edges. Once the Easy Duct clamp (with its built in gasket) is snapped into place, the seal is strong and airtight enough for nearly all dust collection and solid-material conveying applications. It's easy to connect to existing systems, and the clamp-together design allows for faster installation, clean out and system changes.

StoneFlo Workstations DWS
DWS fits anywhere and applies NO restrictions to worker movements or visibility. Designed for in-plant areas where dirty and/or noisy operations are out in the open—grinding, sanding, chipping, batch mixing or welding.

Easy Trunk Fume Collector
Compact, portable, filters smoke, dust, and fumes from welding and grinding.

StoneFlo Dust Collectors by Torit®
Torit Dust Collectors are designed with inclined cartridges and quick removal access covers for easier maintenance and filter change-out. The filter cleaning system lengthens the life you can expect from your filters. Control panel displays are user-friendly with color-coded operating and diagnostic information.

Filter Cartridges by Torit
Don't forget to order filters! Patented EZ Ultra-Web filters, are one of many reasons Torit is the best name in collection systems. With filtration efficiency of 99.9% on particles less than 1 micron, you'll be more than satisfied. Their light weight makes them easy to replace.

StoneFlo Evolution DFE
A best-in-class dust collector capable of reducing equipment size and number of required filters by up to 40% compared to a typical cartridge collector. A smaller collector helps lower the initial purchase price, reduces filter replacement costs, and opens up valuable manufacturing floor space.

Dust Collectors by Italmecc
Air Box water curtain models and dry bench type models are some of the available solutions for dust control.

Kaeser Stationary & Portable Compressors
We offer Kaeser's range of air compressors to meet your compressed air requirements. From Rotary Screw compressors to a complete AirCenter unit. Kaeser is known for their energy efficiency, low noise, easy maintenance, and reliability.

Atlas Copco Stationary Compressors
We also offer Atlas Copco's compressors. Awarded for sustainability. Reliable, energy savings, and outstanding performance!

AIRCENTER
Complete with compressor, tank, dryer and drain— all assembled into one compact, yet easily serviced unit. And you don't need 3 phase power.

Portable Kaeser or ConX Compressors

Also parts & maintenance kits.

ConX XAir SC70 Compressor EA1108

Air Line Regulator

Air Accessories

Miles Supply carries a variety of brass and metal air accessories to meet your air tooling and repair needs. All air parts are available in the standard ⅜" or ½" sizes. Pictured: Brass air hose valves with shut off handles, air line couplers for quick on/off, air line plugs, hose barbs, adapters, air line menders, and hardened hex nipples.

Gold Band Nozzles & Holder

Miles Supply carries gold band nozzles with the solid carbide tubing, which will outlast traditional nozzles 10:1. Identical size makes conversion easy. Allows a deep shape carving and gives a design depth; very popular for doing roses in manufacturing facilities.

XL Performance Nozzle

Improve production with increased abrasive velocity! Good for metalworking.

AV0023 SN159-4XL BP200 SiAlON 12" long, ¼" bore, 1¼" thread

Nozzle Holders

Marco nozzle holders accommodate any size hose and are equipped with an aluminum sleeve and a PVC threaded holder. Threaded hardened nipples with aluminum holders are available separately.

AA000663 Nozzle Base
AA000636 ½" Hose Nipple
AA000655 ¾" Hose Nipple
AA000644 Nozzle Cap

HAP Nozzles by Boride

Miles Supply's system is revolutionary and unique for sandblasting. The "polyjacket" nozzle offers the same boron carbide inserts as other popular nozzles. The polyjacket coating makes the whole nozzle much lighter in weight. These nozzles have been proven for long life and are very cost competitive exclusively at Miles Supply. **HAP Boron Nozzle sizes available: 3/16" and 1/4"**

AV000026 B3L4-HAP 3/16"
AV000030 B4L4-HAP 1/4"

Air Hose

Sold in ⅜", ½", and ¾" sizes; available to ship by the foot or the reel.

⅜"– AV000082
½"– AV000079
¾"– AV000081

Sandblast Hose

Long lasting hose designed for high PSI blasting. 50-foot coils or custom lengths.

AV000099 ⅜" ID × ¾" OD
AV000097 ¾" ID × 1½" OD
AV000098 ¾"

Ceramic Nozzles

Miles Supply carries a variety of ceramic nozzles for your sandblasting needs. Box of 50 or by the piece.

Our popular sizes are:
1/8", 3/16", 1/4", 5/16", and 3/8".

Carbide Shaping Nozzles & Holders

Miles Supply's carbide shaping nozzles are long lasting for shaping and etching. Designed for intricate lettering and fine details. Solid carbide is much more cost effective!
Same sizes as traditional ceramic shaping nozzles.

#2 solid carbide nozzle: 1/8" AV000015 and 3/32" AV000017 sizes
#3 solid carbide nozzle: in 3/32" AV000016, and 5/64" AV000019 sizes

FAP Nozzles by Boride

Miles Supply's system is revolutionary and unique for sandblasting. The "polyjacket" nozzle offers the same boron carbide inserts as other popular nozzles. The polyjacket coating makes the whole nozzle much lighter in weight. Does not require a nozzle cap, it simply screws into the holder and fits right against the sandblast hose. These nozzles have been proven for long life and are very cost competitive exclusively at Miles Supply.

FAP Boron Nozzle sizes available: 3/16", 1/4", 5/16" and 3/8".

AV000027 B3M4-FAP 3/16"
AV000032 B4M4-FAP 1/4"

AV000039 B6M4-K 3/8"

H & FAP Holder:
AV000061 & 62 1"
AV000063 & 65 ¾"
AV000064 ½"

AV000294

Apollo 20 HP Helmets by Clemco
Miles Supply recommends the Apollo 20 HP specifically for sandblasting; it protects the operator's head, neck, shoulders and chest from ricochet abrasive while maintaining positive pressure inside the helmet with the incoming air. The box front window provides a clear, focused view and the lenses are economical to replace. The helmet is lightweight and is designed for use with compressed air systems.

Astro Sandblast Helmets
Astro Abrasive Blasting Helmets are lightweight, robust, and economical. Parts are easily replaceable. Features include a removable head suspension for cleaning, visor strap keeps tension and is easy to use with gloves. Meets worldwide safety standards.

14" PVC glove
BEST 7714-10
AH000130

CLEMCO CO MONITOR FOR HELMET
Alerts the operator to an unsafe condition.
AA1329

Apollo 60 Helmet by Clemco
Comfortable respirator for general use. Double-shell construction, sound-deadening foam, and large window. NIOSH-approved, and protects against lead dust at concentrations 1000 times greater than the permissible exposure limit. For use with compressed air (HP Model) or air pump (LP Model).

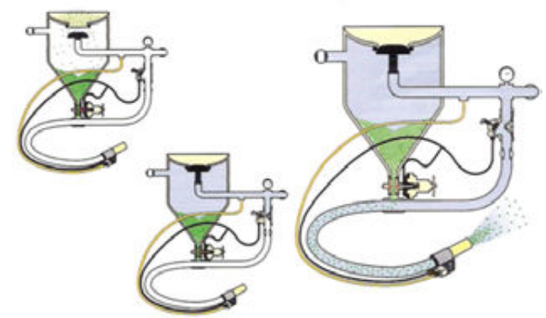
Sandblast Gloves
32" rubber gloves are great for reaching in through a window and sandblasting.
Sold by the pair AH000175

Breathing Air Pumps by Bullard
Miles Supply recommends Bullard air pumps to provide filtered air to the hood respirator of one operator. These air pumps do not require CO monitors and there is no need for an air compressor. Replacement filters sold separately. AB000132

Marco Personal Air Filter
The Marco 286 Airline Filters remove moisture, oil mist, particulates and odors from air supply lines when they are used with other compressed air precautions. Configure them to provide clean air to supplied-air respirators or pneumatic tools and systems. Stable, durable, and easy to use and maintain. AA000684

See combo with blaster on page 5!

See more safety on pages 26-29



***780 (pot-under-pressure) controls**, used with Empire's SuperBlast, PRS and FaStrip systems, stop blasting when the "on/off" trigger is released while maintaining pressure in the vessel.*

"780" Pot-Under-Pressure Controls
Vessel remains pressurized, but stops blasting when you release the remote controls. This system is best for spot blasting. It also conserves compressed air and speeds up restarts. Designed for both safety & profit. Available with either pneumatic or electric remote controls*. Conforms to OSHA. Ask us at Miles Supply for details for your application.

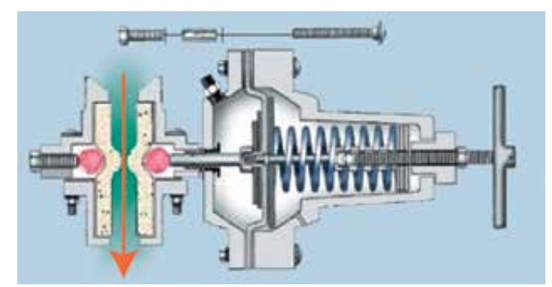
**The key difference between the electric and pneumatic arrangements is that the electric systems perform better in cold weather and provide faster "start/stop" especially when the pressure vessel is far from the operator.*

Manual controls, which can later be upgraded to remotes, are also available-- but these systems require a tender at the vessel to assist in operating the system.

Saf-Stop™ Safety Switch
Empire's patented Saf-Stop II™ control device adds essential safety to any blasting operation by shutting down the system if the pneumatic control hose gets cut, crimped, or crushed. The control comes with a large, easy-to-manage handle protected by a guard.

Another control option, which can be added to the handle, is Empire's exclusive Grit-Mizer™ device. With Grit-Mizer, the operator dials in the right grit flow for conditions by adjusting the air-to-grit ratio remotely from the handle. Grit flow can even be stopped completely for blow-off work.

***Saf-Stop II remote control handle with Grit-Mizer option** provides maximum safety and operator control.*



Manual Shaping Bottom
Miles Supply's Shaper Valve helps control or fine tune the flow of sand/grit; fits on any size Empire blaster. Constant flow and easy adjustment.
AA0036

Sure-Flo® Grit Valve
A key to the popularity of SuperBlast is the patented Sure-Flo grit valve and media regulator. The media path through the valve is straight down, assuring dependable flow. Abrasive media contacts only one part, a gum-rubber pinch tube. Not only is the tube exceptionally long lasting, it's also inexpensive and simple to replace, meaning you enjoy more productive time and virtually maintenance-free operation. Various tube sizes are available to precisely match your application.

The patented Sure-Flo Valve brings any blaster up to a higher level of performance. An unbeatable combination when teamed with Empire products.

THINK OUTSIDE THE BOX

MilezBlast
Miles Supply's Alumina Zirconia. Customers who formerly used Norton Stoneblast keep telling us how great Milezblast sandblast media works.
Try it and "think outside the box!"
AC000024 30/54 A/Z

Starblast
Good for cemetery work. Finer in grit size than Staurolite, more suited for shape carving and lettering along with light dusting of materials other than stone. Grit is #60. **Packaged in 50 lb. bags.**
AC000018 ULTRA ABRASIVE
AC000017 ABRASIVE

Staurolite
An expendable abrasive used for on-site lettering or shaping. Actual grit sizing ranges between 30-36 grit. Excellent for mobile sandblast units. **Packaged in 50 lb. bags.**
AC000016 STAUROLITE

White Lightning
Ceramic abrasive lasts longer than standard Aluminum Oxide and is ENVIRONMENTALLY SAFE making it a great product for outdoor blasting. Granite and marble.
Other grit sizes upon request.
AC0035 30/54
AC000028 36
AC000029 36/46
AC000030 80
AC000031 20

Aluminum Oxide
LionBlast Abrasive is Miles Supply's aluminum oxide. A great alternative to Aluminum Zirconia material.
Packaged in 50 lb. bags.
Grits:
36, 40, 46, 60, 120 grit
AC1117 120 LIONBLAST BAG

AC1105 BUCKET BLAST
AC1110 BUCKET BLEND (in a bag)

Steel Shot
Rounded steel shot S170 is popular for its whitening effect and extremely long life; this material remains very efficient for most sandblasting duties.

Packaged in 50 lb. bags.
AC000014 S170 STEEL SHOT

Steel Grit GFH
Steeling abrasive GFH steel grit. GH or GFH always remains angular in its operating mix. Particularly effective in surface treatment processes.
For other blasting applications such as steel; other grits and hardnesses are available from G12-G120 & S780 - S110.
Packaged in 50 lb. bags.
AC000011 25 Grit GFH
AC000012 40 Grit GFH

Aluminum Oxide-Fine Grit
by Washington Mills
For polishing or light sandblasting. **Grits available: #500, 600, 12.5, 14.5, 17.5, 9.5, K5, 180. All packaged in 300 lb. fiber drums. Smaller quantities available upon request.**
AC0012 220 ALUMINUM OXIDE | AC000044 180 ALUMINUM OXIDE

Silicone Carbide Wiresaw Abrasive
This grain is available for both polishing and sawing. Also used for Lapidary Rock Tumbling applications.
50 lb bags & 300 lb drums. We stock grits from 30/60 to 600.
AC000206 30/60 ABR EX
AC000207 46/70 ABR EX
AC000209 60/90 ABR EX

Synterball
An excellent alternative to steel shot. This material is also ideal for whitening panels. Used locally by manufacturers for general sandblasting duties. **Packaged in 50 lb. bags.**
AC000038 20/40
AC000039 35/70

Glass Beads
Ballotini Impact Beads or Potters Glass Beads
For metal cleaning, metal finishing, peening and deburring.
Packaged in 50 lb. bags.
AC000213 #8 SACK
AC0041 MIL-10 SACK

EcoBlast GMA
80 grit GMA is popular with waterjet stone cutting machines.
AC000215 46 grit GMA
AC000217 60 grit GMA
AC0055 80 grit GMA

Tin Oxide
Vertex grade Tin Oxide for final buffing of stone using felt buffing wheels. **Sold by the pound.**
AC000063 TIN OXIDE

Synter Powder | Marble 5 Extra
For marble polishing. **Sold by the pound.**
AC000047 SYNTER POWDER
AC0072 MARBLE 5 EXTRA

Buffing Powder
Economical A-8 Microcrystalline Powder is used for final buffing of stone using felt buffing wheels.

(25x10 means: 25" width x 10 yard length roll)

Anchor **129Y** Designed for precision cutting IBM® pattern cutters. The slot-hole pattern will also accurately track through Gerber® 15" and friction-fed plotters.
The 30" will not work on large pin computer cutters. Replaces 790Y in IBM® plotter applications.

Miles Supply has tested and will continue to test this new stencil series, Call us or stay tuned for updates.

We have successfully tested Hartco stencil for the stone industry (call us for more information.) We recommend that you experiment first with the new Hartco stencil because of its slightly different properties. Hartco stencil will work for most monument applications.

At this time, for deep shape carving (such as roses) we recommend to stay with Anchor. But Hartco is developing stencil for this application too, so stay tuned!

Hartco Specifications
Monument stencil – double liner
37mil super**polymeric** combination
10 Yard rolls
No filler adhesive formulations**
Excellent for monument blasting applications
Do not laser cut

Hartco Stencil part #s:
*AM1084 I-DL 30X10 (IBM MT40SPi-30) HGS
*AM1085 G-DL 30X10 (Gerber MT40SP-30) high grip
*AM1083 F-DL 30X10 (Friction feed or hand MT40S-30) HGS
*AM1082 F-DL 25X10 (Friction feed or hand MT40S-25) HGS

AM1086 HARTCO F-DL 18.75X10
AM1087 HARTCO F-DL 15X10
AM1088 HARTCO I/G-DL 15X10

116 is designed for slot-hole pattern Gerber® 15" and 30" plotters. The 15" widths will also track accurately in IBM® pattern and friction-fed cutters but 30" is Gerber only.*

Hartco says the increased density of vinyl over rubber allows for equivalent resist capacities in a thinner product.

Fillers

Brand	Product	Coating Base	Consistency	Application
Anchor	211	Rubber	Syrupy	Best used with styles #111, #112, #117, and #157
Anchor	223	Rubber	more viscous than #211	Best used with styles #123-790Y, #124-790YS, #154-790YT
Anchor	333	Water/latext	Syrupy	Use with all Anchor stencils; but ***not*** available in winter- it will freeze. Water washable.

Stone Tone Monument Paints

Miles Supply's shadow paint is specially formulated for the stone industry and is the most advanced.

Testing was conducted by spraying granite samples, which were then placed in a humidity cabinet. The 4 hour test cycle of condensation and 4 hours of drying was repeated continuously for over 1,000 hours for Stone Tone, and over 800 hours for the competitive product. The result was no visual change in the coating appearance of the granite sprayed with Stone Tone, while the competitor's product began to blister after fewer hours. This is a definite improvement in quality!

Available in aerosol, quarts, and gallons in popular colors.

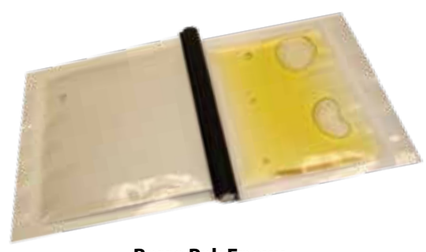
CP Bond Epoxy
Use CP Bond to permanently bond a monument to its base and to repair broken tablets, monuments and marble. CP Bond is better suited for vertical surfaces due to its thicker consistency that will not run. Widely used for the assembly of mausoleums. Miles Supply stocks 250 and 500 gram kits, but can special order 2, 3, 4, 6, or 8 lb. kits. Entire contents of the kit must be mixed at the same time.
250 gram kit will set up to 3 standard size monuments (3′ x 2′ 6″ x 8″), and a 500 gram kit will set up to 6 standard size monuments.
Working time: approx 4 - 6 hours (under 50°F increases tac time; above 100°F decreases tac time). 24 hours for full cure.

AG000085 250 GRAM KIT
AG000087 500 GRAM KIT

See Blaster Combo on page 5, Compressor page 9, Safety page 12.



Barre Pak Epoxy
Barre Pak– the special epoxy designed expressly for the stone industry. Use to permanently bond a monument to its base and to repair broken tablets. Easy to use; pre-measured and mixed in its own container with no mess! A great solution for safety and to deter vandalism.
70 gram kits will adhere an average monument (3′ x 2′6″x 8″) to its base. Working life: Approx 1 - 1¼ hours (under 50°F increases tac time; above 100°F decreases tac time).
24 hours for full cure.

AG000084 EPOXY 70 GRAM KIT

Metregrip 303 Epoxy
The 1:1 ratio makes for EASY mixing and less waste! One hour work-life. Economical and really strong. A Miles Supply exclusive for the stone industry. Knifegrade. **2 qt kit.** AG0047

Domo 10 by Tenax
1:1 ratio. Super strong permanent bond for stone. Knifegrade. **2 liter kit.** AG000130

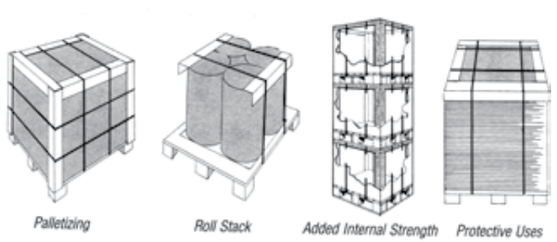
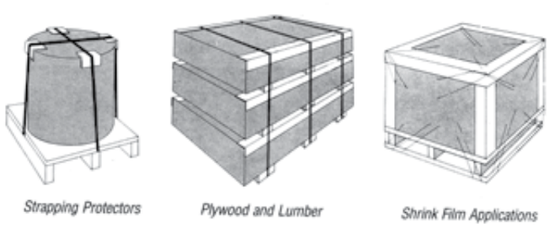
Steel Strapping

Steel Strapping Sealers/ Tensioners

Steel Strapping Seals
Miles Supply offers a wide variety of seals for both manual application and for use in semi-automatic tools where a sleeve of seals is loaded. The open end type is our most popular.



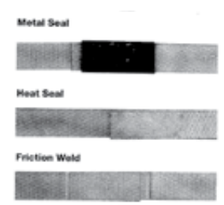


Polyester Plastic Strapping
Plastic saves up to 25%, is easier to dispose of and can be recycled! Moisture and UV resistant. We stock ½" x .028 and 5/8" x .035; other sizes available.

Plastic Strapping Tensioner

Plastic Strapping Sealer

Plastic Strapping Tools & Seals
All the tools you need for your polyester plastic strapping, including metal seals.



Edgeboard and Edge Protectors
Edgeboard is made from layers of paperboard that are glued, treated and formed into a rigid right angle. Edge protectors are plastic and provide more durable protection. Available in various lengths and calipers.

Polyethylene
Miles Supply has polyethylene for your packaging needs. Our polyethylene comes in .002 mil thickness to protect your finished stone.

AD000081 18" ROLL
AD000082 26" ROLL
AD000084 36" ROLL
AD000085 38" ROLL
AD000087 48" ROLL

Stretch Wrap
Available in 18" x .80 gauge, this stretch wrap has become popular for crating purposes. **Sold by the roll or in a case of 4 rolls.**
AD000185

Miles Supply Hand Carts
We modified the popular hand cart from suggestions made by many users. The cart now has better axle position to give you more leverage during operation. Miles Supply also repositioned the cross bars to allow an opening for better access when handling monuments during setting. This very useful monument cart has the standard dual wheels and hand brake. AR000060 Carts without brakes and with different wheel configurations are also available. AR000062

Pendants
Overhead crane pendants for your indoor or outdoor applications. **Available in 2, 4, 6 or 8 button models.**

V board
12' cardboard; protects edges.
AD0031

Vacuum Suction Cups
Contact Miles Supply for the sizes and lifting capacity you need.

Suction Cups
Sold individually or as a pair AL000121; great for clamping down a straight edge. Also suction cup alone AL000122.

Fiber Board
Our fiber board (shown left) is a fold and tuck system for packing all sizes and shapes of dies and bases.
30 different sizes for dies, bases and grass markers.

Wax Coated Cardboard
Wax coated corrugated cardboard (at right) 84" x 19½" in bundles of 250 sheets. Ideal for shipping uses when a carving or specialized surface needs to be protected.
AD000072

see demo on YouTube

Vacuum Lifters

We offer the Vacuum Lifting Company's complete range of self-powered FLT mounted or crane mounted vacuum lifters for handling concrete, stone, marble, granite, slabs, panels. Capacities from 100kgs up to 50000kgs. (up to ~110,231 lbs) Single pads, multi-pads, radio control, 90° or 180° tilting. No installation required.

Monument Lifter

Miles Supply offers Aardwolf lifters, including this GPM-1000 clamp lifter for handling stone monuments and slabs. Grip range: 0 –1´ 4-7/8´ Working load: 2205lb. EA1093

CREDIT
All orders will be shipped C.O.D. unless credit has been approved or the order has been prepaid by either a credit card, money order or wire transfer. All first time orders over $200 must be paid by bank check or money order.

SHORTAGES
After receiving your order from Miles Supply, please confirm immediately that all items (excluding back ordered items) were received. Miles Supply will not accept claims for missing merchandise filed over 2 business days after receipt.

STOCKING
Miles Supply can not guarantee that all items listed in this catalog are always in stock or available. Miles Supply will make every effort, though, to fill your order in a timely manner.

PRICES
All orders are shipped F.O.B. from either Miles Supply's Barre, Vermont or Elberton, Georgia location. Some orders may be shipped directly from the manufacturer to the customer if requested from the customer.

RETURNS
A return merchandise authorization (RMA) number must be issued by Miles Supply before an item is to be returned. Miles Supply will not accept collect shipments on returns unless they have been pre-authorized. A 15% restocking fee may be applied to all returns. Authorization for returns must be made within 45 days of receipt of the order. No returns on special orders. All defective merchandise is subject to Vendor's inspection.

TERMS
Net 30 days with approved credit. (Please see previous page for credit application.) A service charge of 1 1/2 % (18% per year) will be added to accounts over 30 days. Any and all collection fees will be in addition to amounts owed to Miles Supply. Special terms or conditions must be approved by an officer of Miles Supply prior to your order being processed.

RETURN FOR REPAIR OR REPLACEMENT
Miles Supply is limited to a manufacturer's warranty specifications. In certain cases, we may not be able to either issue an immediate credit or warranty repair until the manufacturer gives approval. Misuse is beyond our control and may ultimately void the manufacturer's warranty.

DAMAGES
Claims for damaged goods must be filled with the carrier immediately. In addition, Miles Supply must be notified of the claim within 2 business days. Miles Supply is not responsible for damages by carriers. Please check your shipment thoroughly upon arrival.

TAX EXEMPT
Completed tax exempt forms must be presented prior to, or at the time of sale. Tax refunds will not be honored after the sale has been processed.

LIABILITY
Miles Supply, Inc. (hereinafter collectively referred to as Miles Supply) hereby state that all products, merchandise and equipment sold and delivered are sold with NO warranties, express or implied, including any warranties of fitness or suitability for a particular purpose. Except Miles Supply shall honor all manufacturer's warranties, if any, for the replacement of defective products, merchandise or equipment. Such replacement shall be made according to the manufacturer's terms, conditions and specifications. Miles Supply shall not be liable for any loss, damage, or injury, whether direct, consequential or incidental arising out of the use or inability to use such a product, merchandise or equipment. Buyer bears sole responsibility for determining the suitability of the product, equipment or merchandise for its intended use and hereby assumes all risk and liability for its selection and use and agrees to hold Miles Supply harmless therefrom. No modification of this limited warranty shall be effective unless made in writing and signed by a duly authorized officer of Miles Supply.

Call or go online for a Miles Supply Credit application.

Our Services
Our services vary with location, but did you know we do Diamond Tipping, Pre-cut Stencil, First Aid Kit stocking, and OSHA approved Chain/Sling Inspections?

Don't see what you're looking for? It may be in our other catalogs, or on the website – so give us a call!
