

Anchor Stencil
by IPG (Intertape)

Style 111 Designed specifically for hand cutting. Panels can be accurately and easily replaced. Superior shape carving. Easier cutting means less wear on instruments. White release liner is easily removable. **AM000002 - AM000007**

Style 790Y Hand Cut High quality, durable stencil coated with an advanced, medium tack, rubber-based pressure-sensitive adhesive protected by a clear PET liner. Contains a yellow inner sheet of polyester which retains cut designs during liner removal. Single-process and double-process media blast carving of granite or marble. **AM000014-AM000020**

Style 790YS Machine Cut Gerber Same construction as #790Y, The 15" width will track on both IBM® and Gerber® pattern cutters. *The 30" width will fit only Gerber® #750 plotter machines.* Tractor-feed holes are punched through liner and rubber. Replaces #790Y in Gerber® plotter applications. **AM000026-AM000031**

Style 790YT Machine Cut IBM Same construction as #790YS, Half inch on center hole pattern designed for IBM® sprockets. Replaces #790Y in IBM® cutter applications. **AM000046-AM000050**

3M Stencil

Known for its quality and consistency, 3M continues to be on the leading edge of the stencil product line. Available with a high contrast yellow backing; is even easier to work with throughout the stages of production in your shop.

510 A single liner, low/medium tack stencil for use on stone and pre-painted or soft wood surfaces. Specifically designed for the hand-cutting craftsperson. **AM000070 - AM000076**

519 With a film laminate for use in the stencil press die cut process and with Scotch-Kut letters and designs. Inner liner supports centers of letters, numbers and designs. Eliminates need to tape during panel transfer to stone, helping reduce handling time and increase production. Consistent thickness eliminates burn through and reduces rework. **AM000079 - AM000278**

520 For machine or hand cutting. Die cuttable with Scotch-Kut letters and designs if liner is reversed. Easy release transparent liner leads to easier handling and less stencil distortion, improving the final design. Excellent for single-process technique and straight blasting, as well as double process shape carving. Consistent thickness eliminates burn through and reduces rework. **AM000116 - AM000129**

523 A double liner stencil in either friction feed and tractor feed design.
