

Anchor Stencil by IPG (Intertape)

Style 111 Designed specifically for hand cutting. Panels can be accurately and easily replaced. Superior shape carving. Easier cutting means less wear on instruments. White release liner is easily removable. **AM000002 - AM000007**

Style 790Y Hand Cut High quality, durable stencil coated with an advanced, medium tack, rubber-based pressure-sensitive adhesive protected by a clear PET liner. Contains a yellow inner sheet of polyester which retains cut designs during liner removal. Single-process and double-process media blast carving of granite or marble. **AM000014-AM000020**

Style 790YS Machine Cut Gerber Same construction as #790Y, The 15" width will track on both IBM® and Gerber® pattern cutters. The 30" width will fit only Gerber® #750 plotter machines. Tractor-feed holes are punched through liner and rubber. Replaces #790Y in Gerber® plotter applications. **AM000026-AM000031**

Style 790YT Machine Cut IBM Same construction as #790YS, Half inch on center hole pattern designed for IBM® sprockets. Replaces #790Y in IBM® cutter applications. **AM000046-AM000050**

AM000002	111 12¾X10	AM000009	116 15 X 10

Double Liner Stencil Chart

Anchor		Hartco
790Y	Hand-cut	MT40S
	Friction Feed	MT40S
790YS	Gerber punch	MT40SP
790YT	IBM punch	MT40SPi

Miles Supply has tested and will continue to test this new stencil series, Call us or stay tuned for updates.

We have successfully tested Hartco stencil for the stone industry (call us for more information.) We recommend that you experiment first with the new Hartco stencil because of its slightly different properties. Hartco stencil will work for most monument applications.

At this time, for deep shape carving (such as roses) we recommend to stay with Anchor. But Hartco is developing stencil for this application too, so stay tuned!

Hartco Specifications

Monument stencil – double liner
37mil superpolymeric combination
10 Yard rolls
No filler adhesive formulations**
Excellent for monument blasting applications
Do not laser cut

Hartco Stencil part #s:

*AM1084 I-DL 30X10 (IBM MT40SPi-30) HGS
*AM1085 G-DL 30X10 (Gerber MT40SP-30) high grip
*AM1083 F-DL 30X10 (Friction feed or hand MT40S-30) HGS
*AM1082 F-DL 25X10 (Friction feed or hand MT40S-25) HGS
AM1086 HARTCO F-DL 18.75X10
AM1087 HARTCO F-DL 15X10
AM1088 HARTCO I/G-DL 15X10
AM1092 PATCH HARTCO

*We have 25" and 30" rolls in stock
Friction feed, and Gerber & IBM punches.

HGS=super high grip adhesive
10 Yard rolls - width in inches 30" X10 yards

**Some customers said they still wanted to use adhesive; do NOT use the 3M brand filler – it has an adverse affect on the stencil. Anchor filler works, some have also added 3M Super 77 spray to it.
