abra iride

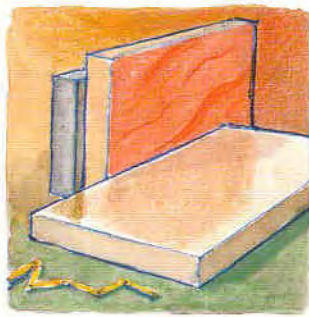

"DIAMANT IRIDE" GRANA GRAIN 24 - 220

É un utensile nato dall'esperienza degli abrasivi del tipo "PROTOS" a sfere. La nuova concezione di produzione dei settori diamantati ci permette di adattare l'utensile ad ogni tipo di impianto di lucidatura, garantendo così le massime prestazioni qualitative.

This is a tool which was born from the experience of "PROTOS" sphere abrasives. The new conception of production in the diamond sectors allows us to adapt the tool to every kind of polishing machine, thereby guaranteeing performance of the highest quality.
