SuperBlast® Stationary Blasters
by Empire

Designed for simplicity, safety, reliability and performance, the Empire SuperBlast® tanks are perfect for projects big or small. Contact Miles Supply to order the size you need.

Econo-Blast™ Portables
by Empire

Econo-Blast portable tanks are compact pressure blasters that share many features of Super-Blast. Ideal for spot blasting and detail work. This economical option has less grit capacity and smaller nozzles.

Empire Stationary & Portable Blasters

SuperBlast can be electronically connected to the Hiron Automatic Model J curtain, page 5; when set number of passes are completed, the blasting process is automatically shut down.

The larger Econo-Blast models can be equipped with Empire's patented Sure-Flo grit valve and 680 remote controls, which stops blasting the instant the nozzle is released, see page 13.

Blast Machines by Marco

Miles Supply offers the full line of Marco Blast Machines. These lightweight Marco Blast Machines have a powder-coated finish, concave top with triangle handle to make it easy to fill and pressurize the machine. Standard features like the moisture separator keeps the abrasive drier, while the Integrator Series Mixing Valve lets you control the right blend of air and abrasives. The Integrator's air-only feature also helps with quick clean-up. Let us help you decide which model is right for you!

Call or see website for Marco Parts and lists.

Click for Marco Metering Valve PARTS List.

Brooksie Blaster!

We combine a Marco personal air filter with a blaster—use less hose!

Model J Automatic Sandblaster by Hiron

Units are fully assembled and tested prior to shipment. 8' and 10' Models.

- Look for these features:
- Full range of speeds for independent horizontal and vertical motion, precise controls can adjust coverage during operation.
 - Compressed air power continues movement to the end of the track, preventing media damage to the stone; power failures will not cause the nozzle to stop motion in mid-stroke.
 - Viewing screen offers excellent visibility during blasting, and screen frames slide open to allow for easy stencil inspection.
 - Sandhose connection inside the blastroom.
 - Optional rubber curtain for manual work access.
 - Can be electronically connected to the Empire Blaster. For automatic shut down after set number of passes are completed.

Miles Supply Abrasive Pick-up

Stop shoveling your sand into your tank and let our Abrasive Pick-up unit suck it up instead. Reasonably priced and quality craftsmanship are two features that set this unit apart from the competition. Includes a bottom screen.

Unit is shown on top; pick up hose and Empire tank sold separately.

EA0018
1000lb tank 10.68 cu foot with Jet & Head

Steel Shot Pick-up Unit

Steel Shot Elevator will eliminate shoveling and sifting, while also delivering clean shot to the shaping machine. The unit (28" round x 42" high) can be mounted on top of the shaping room, hung from overhead rafters, or mounted on legs either outside or inside the shaping room. Installation is simple and can be adapted to any shaping room. This unit will pay for itself in no time!

EA0001

Easy Duct™

Easy Duct™ is easy to install. Requires no welds, no rivets and no screws. The components clamp together which eliminates time-consuming and costly joining methods. Easy Duct™ is not only quick, it's also strong. Start with straight pipe in diameters from 4 to 22 inches and add fittings, branches, elbows, hoods and adaptors; with each connecting end having specially machined double rolled edges. Once the Easy Duct clamp (with its built in gasket) is snapped into place, the seal is strong and airtight enough for nearly all dust collection and solid-material conveying applications. It's easy to connect to existing systems. The clamp-together design allows for faster installation, clean out, system changes & reconfigurations.

StoneFlo Workstations DWS

DWS fits anywhere and applies NO restrictions to worker movements or visibility. Designed for in-plant areas where dirty and/or noisy operations are out in the open—grinding, sanding, chipping, batch mixing or welding.

Easy Trunk Fume Collector

Compact, portable, filters smoke, dust, and fumes from welding and grinding.

StoneFlo Dust Collectors by Torit®

Torit Dust Collectors are designed with inclined cartridges and quick removal access covers for easier maintenance and filter change-out. The filter cleaning system lengthens the life you can expect from your filters. Control panel displays are user-friendly with color-coded operating and diagnostic information.

Filter Cartridges by Torit

Don't forget to order filters! Patented EZ Ultra-Web filters, are one of many reasons Torit is the best name in collection systems. With filtration efficiency of 99.9% on particles less than 1 micron, you'll be more than satisfied. Their light weight makes them easy to replace.

Dust Collectors by Italmec

Air Box water curtain models and dry bench type models are some of the available solutions for dust control.

StoneFlo Evolution DFE

A best-in-class dust collector capable of reducing equipment size and number of required filters by up to 40% compared to a typical cartridge collector. A smaller collector helps lower the initial purchase price, reduces filter replacement costs, and opens up valuable manufacturing floor space.

Equipment

Kaeson Stationary & Portable Compressors
We offer Kaeson's range of air compressors to meet your compressed air requirements. From Rotary Screw compressors to a complete AirCenter unit. Kaeson is known for their energy efficiency, low noise, easy maintenance, and reliability.

Atlas Copco Stationary Compressors
We also offer Atlas Copco's compressors. Awarded for sustainability. Reliable, energy savings, and outstanding performance!

AIRCENTER
Complete with compressor, tank, dryer and drain— all assembled into one compact, yet easily serviced unit. And you don't need 3 phase power.

 $\frac{3}{4}$ " - AV000081

Gold Band Nozzles & Holder

Miles Supply carries gold band nozzles with the solid carbide tubing, which will outlast traditional nozzles 10:1. Identical size makes conversion easy. Allows a deep shape carving and gives a design depth; very popular for doing roses in manufacturing facilities.

XL Performance Nozzle

Improve production with increased abrasive velocity! Good for metalworking.

AV000064 $\frac{1}{2}$ "

Apollo 20 HP Helmets by Clemco

Miles Supply recommends the Apollo 20 HP specifically for sandblasting; it protects the operator's head, neck, shoulders and chest from ricochet abrasive while maintaining positive pressure inside the helmet with the incoming air. The box front window provides a clear, focused view and the lenses are economical to replace. The helmet is lightweight and is designed for use with compressed air systems.

Nova 3 Respirator Sandblast Helmet by rpb

A premium sandblasting option. This model comes with a battery PAPR powered air purifying respirator. Keeps you safe, cool, and comfortable. Tear-off lens system. Customizable motorcycle-helmet padding deadens noise. Designed for superior comfort and peripheral & downward visibility. Non-fogging air flow. **AV1277**

Astro Sandblast Helmets

Astro Abrasive Blasting Helmets are lightweight, robust, and economical. Parts are easily replaceable. Features include a removable head suspension for cleaning, visor strap keeps tension and is easy to use with gloves. Meets worldwide safety standards.

CLEMCO CO MONITOR FOR HELMET

Alerts the operator to an unsafe condition. **AA1329**

14" PVC glove
BEST 7714-10
AH000130

Sandblast Gloves

32" rubber gloves are great for reaching in through a window and sandblasting. Sold by the pair **AH000175**

Breathing Air Pumps by Bullard

Miles Supply recommends Bullard air pumps to provide filtered air to the hood respirator of one operator. These air pumps do not require CO monitors and there is no need for an air compressor. Replacement filters sold separately. **AB000132**

Apollo 60 Helmet by Clemco

Comfortable respirator for general use. Double-shell construction, sound-deadening foam, and large window. NIOSH-approved, and protects against lead dust at concentrations 1000 times greater than the permissible exposure limit. For use with compressed air (HP Model) or air pump (LP Model).

"780" Pot-Under-Pressure Controls

Vessel remains pressurized, but stops blasting when you release the remote controls. This system is best for spot blasting. It also conserves compressed air and speeds up restarts. Designed for both safety & profit. Available with either pneumatic or electric remote controls*. Conforms to OSHA. Ask us for details for your application.

**The key difference between the electric and pneumatic arrangements is that the electric systems perform better in cold weather and provide faster "start/stop" especially when the pressure vessel is far from the operator.*

Manual controls, which can later be upgraded to remotes, are also available-- but these systems require a tender at the vessel to assist in operating the system.

Marco Personal Air Filter

The Marco 286 Airline Filters remove moisture, oil mist, particulates and odors from air supply lines when they are used with other compressed air precautions. Configure them to provide clean air to supplied-air respirators or pneumatic tools and systems. Stable, durable, and easy to use and maintain. **AA000684**

See combo with blaster on page 5!

Manual Shaping Bottom
Miles Supply's Shaper Valve helps control or fine tune the flow of sand/grit; fits on any size Empire blaster. Constant flow and easy adjustment. **AA0036**

Saf-Stop™ Safety Switch

Empire's patented Saf-Stop II™ control device adds essential safety to any blasting operation by shutting down the system if the pneumatic control hose gets cut, crimped, or crushed. The control comes with a large, easy-to-manage handle protected by a guard.

Another control option, which can be added to the handle, is Empire's exclusive Grit-Mizer™ device. With Grit-Mizer, the operator dials in the right grit flow for conditions by adjusting the air-to-grit ratio remotely from the handle. Grit flow can even be stopped completely for blow-off work.

Sure-Flo® Grit Valve

A key to the popularity of SuperBlast is the patented Sure-Flo grit valve and media regulator. The media path through the valve is straight down, assuring dependable flow. Abrasive media contacts only one part, a gum-rubber pinch tube. Not only is the tube exceptionally long lasting, it's also inexpensive and simple to replace, meaning you enjoy more productive time and virtually maintenance-free operation. Various tube sizes are available to precisely match your application.

The patented Sure-Flo Valve brings any blaster up to a higher level of performance. An unbeatable combination when teamed with Empire products.

See more safety on pages 26-29

MilezBlast

Miles Supply's Alumina Zirconia. Customers who formerly used Norton Stoneblast keep telling us how great Milezblast sandblast media works. Try it and "think outside the box!"

AC000024 30/54 A/Z

Starblast

Good for cemetery work. Finer in grit size than Staurolite, more suited for shape carving and lettering along with light dusting of materials other than stone. Grit is #60. **Packaged in 50 lb. bags.**

AC000018 **ULTRA ABRASIVE**
AC000017 **ABRASIVE**

Staurolite

An expendable abrasive used for on-site lettering or shaping. Actual grit sizing ranges between 30-36 grit. Excellent for mobile sandblast units. **Packaged in 50 lb. bags.**

AC000016 **STAUROLITE**

Aluminum Oxide

LionBlast Abrasive is Miles Supply's aluminum oxide. A great alternative to Aluminum Zirconia material. **Packaged in 50 lb. bags.**

Grits:
36, 40, 46, 60, 120 grit

Steel Shot

Rounded steel shot S170 is popular for its whitening effect and extremely long life; this material remains very efficient for most sandblasting duties.

Packaged in 50 lb. bags.

AC000014 **S170 STEEL SHOT**

Steel Grit GFH

Steeling abrasive GFH steel grit. GH or GFH always remains angular in its operating mix. Particularly effective in surface treatment processes.

For other blasting applications such as steel; other grits and hardnesses are available from G12-G120 & S780 - S110.

Packaged in 50 lb. bags.

AC000011 **25 Grit GFH**
AC000012 **40 Grit GFH**

Aluminum Oxide-Fine Grit

by Washington Mills

For polishing or light sandblasting. Grits available: #500, 600, 12.5, 14.5, 17.5, 9.5, K5, 180. All packaged in 300 lb. fiber drums. Smaller quantities available upon request.

AC0012 220 ALUMINUM OXIDE | AC000044 180 ALUMINUM OXIDE

Silicone Carbide Wiresaw Abrasive

This grain is available for both polishing and sawing. Also used for Lapidary Rock Tumbling applications. 50 lb bags & 300 lb drums. We stock grits from 30/60 to 600.

AC000206 30/60 ABR EX
AC000207 46/70 ABR EX
AC000209 60/90 ABR EX

Synterball

An excellent alternative to steel shot. This material is also ideal for whitening panels. Used locally by manufacturers for general sandblasting duties. **Packaged in 50 lb. bags.**

AC000038 20/40
AC000039 35/70

Glass Beads

Ballotini Impact Beads or Potters Glass Beads For metal cleaning, metal finishing, peening and deburring.

Packaged in 50 lb. bags.

AC000213 **#8 SACK**
AC0041 **MIL-10 SACK**

EcoBlast GMA

80 grit GMA is popular with waterjet stone cutting machines.

AC000215 46 grit GMA
AC000217 60 grit GMA
AC0055 80 grit GMA

Tin Oxide

Vertex grade Tin Oxide for final buffing of stone using felt buffing wheels. **Sold by the pound.**

AC000063 **TIN OXIDE**

Synter Powder | Marble 5 Extra

For marble polishing. **Sold by the pound.**

AC000047 **SYNTER POWDER**
AC0072 **MARBLE 5 EXTRA**

Buffing Powder

Economical A-8 Microcrystalline Powder is used for final buffing of stone using felt buffing wheels.

AC000045 **A8 BUFFING POWDER**

10X Abrasive for Metal Working

10X PERFORMANCE ABRASIVES for sandblasting metal. Faster and more effective than other premium abrasives.

10X outperforms the competition, working on powder coatings, epoxy, mill scale, polyurethanes, thermoplastic, damaged specialty coatings, and even paint racks with multiple coatings. If you've got a tough job, 10X is up for the task. Cost-effective & safe.

AM1094-AM1102

Double Liner:
Style 790Y Hand Cut High quality, durable stencil coated with an advanced, medium tack, rubber-based pressure-sensitive adhesive protected by a clear PET liner. Contains a yellow inner sheet of polyester which retains cut designs during liner removal. Single-process and double-process media blast carving of granite or marble. **AM000014-AM000020**

Style 790YS Machine Cut Gerber Same construction as #790Y, The 15" width will track on both IBM® and Gerber® pattern cutters. The 30" width will fit only Gerber® #750 plotter machines. Tractor-feed holes are punched through liner and rubber. **AM000026-AM000031**

Style 790YT Machine Cut IBM Same construction as #790YS, Half inch on center hole pattern designed for IBM® sprockets. **AM000046-AM000050**

(25x10 means: 25" width x 10 yard length roll)

Anchor 129Y Designed for precision cutting IBM® pattern cutters. The slot-hole pattern will also accurately track through Gerber® 15" and friction-fed plotters. The 30" will not work on large pin computer cutters. Replaces 790Y in IBM® plotter applications.

Miles Supply has tested and will continue to test this new stencil series, Call us or stay tuned for updates.

We have successfully tested Hartco stencil for the stone industry (call us for more information.) We recommend that you experiment first with the new Hartco stencil because of its slightly different properties. Hartco stencil will work for most monument applications.

At this time, for deep shape carving (such as roses) we recommend to stay with Anchor. But Hartco is developing stencil for this application too, so stay tuned!

Hartco Specifications
Monument stencil – double liner
37mil superpolymeric combination
10 Yard rolls
No filler adhesive formulations**
Excellent for monument blasting applications
Do not laser cut

Hartco Stencil part #s:
*AM1084 I-DL 30X10 (IBM MT40SPi-30) HGS
*AM1085 G-DL 30X10 (Gerber MT40SP-30) high grip
*AM1083 F-DL 30X10 (Friction feed or hand MT40S-30) HGS
*AM1082 F-DL 25X10 (Friction feed or hand MT40S-25) HGS

AM1086 HARTCO F-DL 18.75X10
AM1087 HARTCO F-DL 15X10
AM1088 HARTCO I/G-DL 15X10
AM1092 PATCH HARTCO

HGS=super high grip adhesive
10 Yard rolls - width in inches 30" X10 yards

*We have stocked 25" and 30" rolls
Friction feed, and Gerber & IBM punches.

**Some customers said they still wanted to use adhesive; do NOT use the 3M brand filler – it has an adverse affect on the stencil. Anchor filler works, some have also added 3M Super 77 spray to it.

double				IBM	Hartco	MT40SPi	37-40	H	superpolymeric	I-DL 30x10. HGS

116* is designed for slot-hole pattern Gerber® 15" and 30" plotters. The 15" widths will also track accurately in IBM® pattern and friction-fed cutters but 30" is Gerber only.
Hartco says the increased density of vinyl over rubber allows for equivalent resist capacities in a thinner product.

Fillers

Brand	Product	Coating Base	Consistency	Application
Anchor	211	Rubber	Syrupy	Best used with styles #111, #112, #117, and #157
Anchor	223	Rubber	more viscous than #211	Best used with styles #123-790Y, #124-790YS, #154-790YT
Anchor	333	Water/latex	Syrupy	Use with all Anchor stencils; but not available in winter- it will freeze. Water washable.

See charts for plotters, more Anchor IPG stencil info, and 3M comparison on website. *113 info TBD.

Stone Tone Monument Paints

Miles Supply's shadow paint is specially formulated for the stone industry and is the most advanced. Testing was conducted by spraying granite samples, which were then placed in a humidity cabinet. The 4 hour test cycle of condensation and 4 hours of drying was repeated continuously for over 1,000 hours for Stone Tone, and over 800 hours for the competitive product. The result was no visual change in the coating appearance of the granite sprayed with Stone Tone, while the competitor's product began to blister after fewer hours. This is a definite improvement in quality!

Available in aerosol, quarts, and gallons.

Aerosol sizes:
AK000143 BLACK SHADOW
AK000144 CLEAR
AK000159 GRAY

Lithichrome Stone Paint

Lithichrome stone paint & shadow. In gallons, quarts, pints, aerosol, 6 oz jars, 2 oz jars.

Also solvent, sawsheen, and permabond. See part # list and color chart click to see on our website.

CP Bond Epoxy

Use CP Bond to permanently bond a monument to its base and to repair broken tablets, monuments and marble. CP Bond is better suited for vertical surfaces due to its thicker consistency that will not run. Widely used for the assembly of mausoleums. Miles Supply stocks 250 and 500 gram kits, but can special order 2, 3, 4, 6, or 8 lb. kits. Entire contents of the kit must be mixed at the same time.
250 gram kit will set up to 3 standard size monuments (3' x 2' 6" x 8"), and a 500 gram kit will set up to 6 standard size monuments.
Working time: approx 4 - 6 hours (under 50°F increases tac time; above 100°F decreases tac time). 24 hours for full cure.

AG000085 250 GRAM KIT
AG000087 500 GRAM KIT

Barre Pak Epoxy

Barre Pak– the special epoxy designed expressly for the stone industry. Use to permanently bond a monument to its base and to repair broken tablets. Easy to use; pre-measured and mixed in its own container with no mess! A great solution for safety and to deter vandalism. 70 gram kits will adhere an average monument (3' x 2' 6" x 8") to its base. Working life: Approx 1 - 1 1/4 hours (under 50°F increases tac time; above 100°F decreases tac time). 24 hours for full cure.

AG000084 EPOXY 70 GRAM KIT

Metregrip 303 Epoxy

The 1:1 ratio makes for EASY mixing and less waste! One hour work-life. Economical and really strong. A Miles Supply exclusive for the stone industry. Knife-grade. 2 qt kit. AG00047

Domo 10 by Tenax

1:1 ratio. Super strong permanent bond for stone. Knife-grade. 2 liter kit. AG000130

Tenax

Handling

Steel Strapping

Steel Strapping Sealers/ Tensioners

Steel Strapping Seals

Miles Supply offers a wide variety of seals for both manual application and for use in semi-automatic tools where a sleeve of seals is loaded. The open end type is our most popular.

Polyester Plastic Strapping

Plastic saves up to 25%, is easier to dispose of and can be recycled! Moisture and UV resistant. We stock 1/2" x .028 and 5/8" x .035; other sizes available.

Plastic Strapping Tensioner

Plastic Strapping Sealer

Plastic Strapping Tools & Seals

All the tools you need for your polyester plastic strapping, including metal seals.

Edgeboard and Edge Protectors

Edgeboard is made from layers of paperboard that are glued, treated and formed into a rigid right angle. Edge protectors are plastic and provide more durable protection. Available in various lengths and calipers.

Polyethylene

Miles Supply has polyethylene for your packaging needs. Our polyethylene comes in .002 mil thickness to protect your finished stone.

- AD000081 18" ROLL
- AD000082 26" ROLL
- AD000084 36" ROLL
- AD000085 38" ROLL
- AD000087 48" ROLL

Stretch Wrap

Available in 18" x .80 gauge, this stretch wrap has become popular for crating purposes. Sold by the roll or in a case of 4 rolls. AD000185

V board

12' cardboard; protects edges. AD0031

Fiber Board

Our fiber board (shown left) is a fold and tuck system for packing all sizes and shapes of dies and bases. 30 different sizes for dies, bases and grass markers.

Wax Coated Cardboard

Wax coated corrugated cardboard (at right) 84" x 19 1/2" in bundles of 250 sheets. Ideal for shipping uses when a carving or specialized surface needs to be protected.

AD000072

Pendants

Overhead crane pendants for your indoor or outdoor applications. Available in 2, 4, 6 or 8 button models.

Suction Cups

Sold individually or as a pair AL000121; great for clamping down a straight edge. Also suction cup alone AL000122.

Vacuum Suction Cups

Contact Miles Supply for the sizes and lifting capacity you need.

Miles Supply Hand Carts

We modified the popular hand cart from suggestions made by many users. The cart now has better axle position to give you more leverage during operation. Miles Supply also repositioned the cross bars to allow an opening for better access when handling monuments during setting. This very useful monument cart has the standard dual wheels and hand brake. AR000060. Carts without brakes and with different wheel configurations are also available. AR000062
